

The *All of Us* Friday Morning Coffee Series

Join us to learn more about getting started on the *All of Us* Researcher Workbench. Session topics include basics about the data available, how to use Workbench tools, and how to collaborate on projects, with additional sessions dedicated to Q&A. Sessions will be conducted by experts.

**12 sessions offered approximately every 3 weeks
Friday mornings from 10:00 a.m.-11:30 a.m. ET
September 2025-June 2026**

WHO WE ARE

ELIZABETH COHN, RN, NP, PHD
Professor of Medicine
Community Health and Social Medicine
City University of New York
IGNITE Principle Investigator (PI)

FRIDA KLEIMAN MS, PhD
Professor
Hunter College - CUNY
IGNITE *All of Us* Curriculum Leader

NAKISA POURKEY, MPH
IGNITE Program Director
Community Health and Social Medicine
City University of New York

S. SCOTT JONES, MS
Adjunct Biostatistician
School of Medicine
City University of New York
IGNITE Biostatistician

WHAT IS ALL OF US?

The National Institutes of Health's *All of Us* Research Program is a historic effort to collect and study data from one million or more people living in the United States and its territories. The goal of *All of Us* is to speed up health research discoveries, enabling new kinds of individualized health care. To make this possible, the program is building one of the world's largest and most comprehensive databases for health research.

ResearchAllofUs.org

IGNITE VISION AND MISSION

At IGNITE, we strive to support researchers accessing the *All of Us* Researcher Workbench. In collaboration with our community, clinical, and academic partners we find ways to use the *All of Us* data to contribute to the science of community engagement and to improve community health. We have launched a national model using successful and evidence-based engagement strategies to connect researchers in the biomedical workforce, from academic institutions and community organizations, to the *All of Us* Researcher Workbench for conducting research projects that aim to improve the quality of life and well-being of community members.
